

# Allergy Testing

Was it something  
you ate or drank?

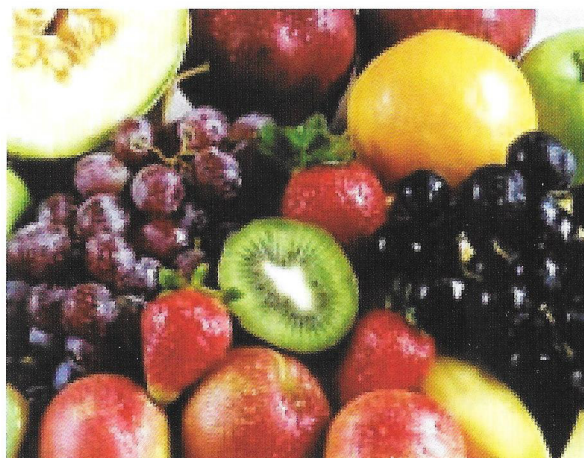

Do you suffer from the following:

- Digestive Disorders
- Overweight
- Tiredness and Fatigue
- Headaches and Migraine
- Eczema and Skin complaints
- Asthma
- Arthritis and Joint pain
- Catarrh and Sinus congestion
- Irritable Bowel Syndrome
- Anxiety and Depression
- Hyperactivity
- Hayfever

**NURTURE....**

If you suffer from any of the complaints listed overleaf, a simple one hour's test could transform your life!

In just **one hour** we can test for over 150 food, drink and environmental substances.

You will leave knowing exactly which foods (if any) you are sensitive to and how to work in **harmony with your body**.

The system is non invasive, quick, and most importantly - **painless**.

Your test will produce **immediate results** and also includes a free vitamin and mineral deficiency check.

**NOURISH....**

“ I'm amazed, I've lost over a stone in two months and I didn't even have to count calories. A quality and enlightening service! ”

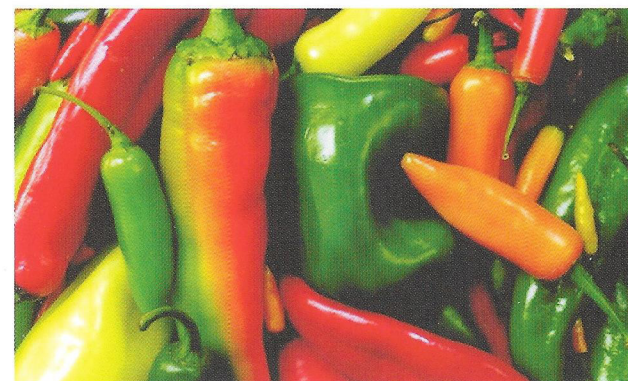

Sophie, Somerset

“ I now wake up alert and stay in a good mood all day - what a complete miracle! ”

Angela, Bristol

“ I never thought it would be possible for me to be regular like clockwork! I go every morning at the same time - how amazing that makes me feel, thank you! ”

Tony, Brighton

“ I don't get into trouble at school any more! ”

Jack, Somerset

## Common questions and answers:

### How long does it take for results to come through?

Results are instant and will be compiled for you to take away at the end of the one hour session.

### Does it hurt?

No, the testing is non-intrusive and completely pain free.

### Can children be tested?

Yes, as long as the child has been weaned onto solid foods.

### Will I need more than one treatment?

We recommend that you return for a follow up test after 3 months so that we can monitor your progress and advise on the safe re-introduction of foods into your diet.

### Will I have to give up certain foods altogether?

No, we will compile your own personal elimination programme with a view to re-introducing possible foods back into your diet after 3 months - if appropriate.

### Will it affect any medication I'm taking?

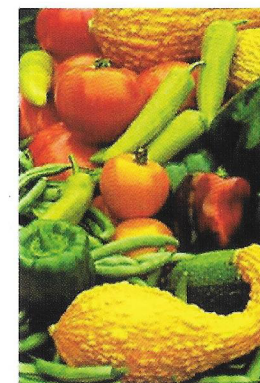

This is completely diagnostic therapy that combines with traditional medicine.

## Everyday foods can damage your health!

Give us a call if you would like to discuss allergy food intolerance testing further or if you would like to book an appointment.

You can call your local Allergy Test UK Ltd approved tester:

## CHILDREN AND MORA

Babies and young children may sometimes suffer from reactions to milk, wheat and commercial baby foods etc. Because of the method used for testing, by using the Mora Nova, it is usually possible to check babies from as young as nine month's old without causing any distress to the child.

Mora Therapy has often shown to be helpful in treating children from two years old with skin, breathing and other problems.

**Mora Therapy  
can help maintain  
Your general health!**

## GENERAL INFORMATION

You may feel that due to a lack of any sensation during your Mora Therapy nothing appears to be happening, nothing could be further from the truth. During Therapy waste material is being passed out of the cells into the connective tissue and this needs to be drained away through the lymphatic system and the kidneys. After your treatment, for the rest of the day and the following day, you should drink plenty of water equivalent to about two litres per day.

This should be filtered water or for instance Evian but not tap water.

Your symptoms may have been developing over several years. Mora Therapy works by assisting the body's own inherent healing abilities and time is needed for this to process to take place.

You need to be patient as each treatment you receive gives instructions to the body which is carried out over the next three to four weeks, at which point a further treatment may well be necessary.

**The Mora Nova**

## Indications for Therapy

Mora Therapy is capable of aiding in the treatment of a wide spectrum of medical conditions alongside conventional medicine. Mora Therapy is aimed at improving the overall well being of the person and although specific conditions can be treated, the main object of therapy is to help the body in a healing process that will improve all of the body's systems at a cellular level.

The Mora Nova is also used as a diagnostic device for example Sensitivity testing as well as for treatment.

### **Below are some of the conditions which have been found to respond to Mora Therapy.**

Food & other sensitivities	Pain of all kinds
Arthritic conditions	Amalgam detoxification
Neck & shoulder tension	Osteoporosis
Circulation problems	Menopausal symptoms
Pre-menstrual symptoms	Gastro-Intestinal problems
Sinusitis	Asthma
Migraine & headache	Shingles
Skin conditions	Lack of energy
Mental exhaustion	Environmental detox
Organ detoxification	Lymph inflammation

## FIVE ELEMENT MUSIC THERAPY

In many practices and hospitals across the world it has been found that certain types of music can have a beneficial effect on a person's health. The Mora Nova incorporates such a system to enable your therapist to deliver music to you whilst undergoing other therapy, either by head phones or merely by listening to the device.

There are ten groups of music therapy. These are used for sleep problems, regulating moods, regulation of Chi, detoxification of heat, depression, relaxation, general tonic, relief from sadness and aiding appetite etc.

# MORA THERAPY Diagnosis & Substance Testing

## The Mora Nova

**The Mora Nova**

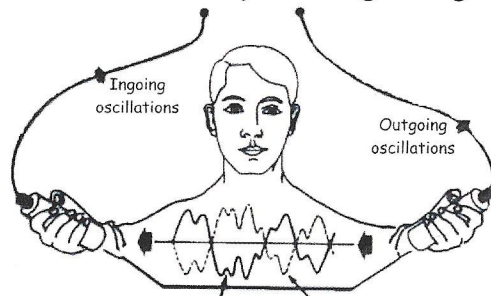

# 1000 allergens tested with Mora Nova

## WHAT IS MORA THERAPY?

The Mora Nova is very sophisticated and the latest in a long line of medical testing and treatment devices. Mora Therapy was first developed by the brilliant German doctor Dr. Franz Morell and equally talented electronics engineer Eric Rasche over thirty years ago.

It is a complete assessment and treatment device using a patient's own "ultra-fine electromagnetic oscillations or signals" which are electronically sensed, processed and then utilised as therapy, via the hand, foot and head electrodes. Toxic substance information is "deleted" by inverting the signal.

Therapy results ————— Pathological oscillations eliminated

*Toxic substance information is "deleted" by inverting the signal.*

Mora Therapy compliments orthodox medicine without replacing it. Diagnosis and therapy take place at a minute substance level which cannot be diagnosed and treated in the conventional way, thereby reaching disorders which cannot, or only superficially, be treated by orthodox medicine.

The aim of Mora Therapy is to regulate the body's biophysical control mechanisms and to stimulate and reinforce the body's own immune system. Various conditions can therefore be treated using the Mora Nova's over 100 specific inbuilt therapy programmes.

## ALLERGY TESTING WITH MORA (Sensitivity testing)

In 1983 Dr. Morell evolved a new allergy diagnosis system during the development of Mora Therapy. It was discovered that if information of a suspected allergen is applied to the person's body in an inverted form (i.e. 180 degrees out of phase) on a previously diagnosed "pathological acupuncture point" i.e. a point that is reading significantly higher than normal, then the reading on that point is much improved, thereby indicating that there is a problem with that particular substance.

Consequently because of this discovery today a large number of medicines, foods and all potential types of allergens can be tested to gain an extensive picture of a sensitivity without stressing the person.

This system has now been developed to a point that today the new Mora Nova, unlike other testing systems which are only capable of testing for a few allergens, is capable of testing for over 1000 substances in a relatively short space of time.

## PAIN TREATMENT WITH MORA

Pain is a signal from the body that something is not quite right. We all understand that pain from any cause can be debilitating. What is most important is the underlying cause of the pain. Once a correct diagnosis is established then Mora Therapy has been found to help provide relieve from such conditions as headaches, joint pains, Arthritis, muscle problems, back problems and much more.

## SUPPLEMENTS

Your therapist may advise you to take certain supplements as part of your treatment, particularly with such conditions as Arthritis, Mercury poisoning, Candidiasis etc. It would be in your best interest to accept their recommendations in this matter to obtain the most benefit from your treatment.

## DETOXIFICATION WITH MORA

As we grow from childhood to adults our bodies are continually being bombarded with toxins, from the air we breath including occupational environments, the water we drink and the food we eat.

As individuals we also increase this toxic overload by smoking, drinking alcohol, taking recreational drugs, taking a cocktail of prescribed medicines and by having mercury fillings in our teeth etc.

All of these things are known to slow down the body's ability to function efficiently. They attack our immune system, cause hormonal dysfunction and act as a precursor for serious medical conditions and speed up the ageing process of our bodies.

There are also other factors which can affect our bodies such things as pylons, computers, mobile phones and their masts, microwaves, TV's etc. We live in a world of electro magnetic fields (EMF) which also can damage our health.

Your Mora therapist can treat you for environmental toxins, give you advice about mercury fillings and other heavy metal poisoning and offer treatment.

Certain organs of the body also have a tendency to become toxic over time, these include: the bowel, liver, kidneys, lymph glands etc. The Mora Nova has special built in programmes to help you detoxify against these problems whether the situation is acute or chronic. Detoxification with the Mora Nova helps to clear out the accumulated free radicals from your body thereby:

1. Improving the immune system.
2. Improving hormonal response.
3. Cleansing the connective tissue (Mesenchyme).
4. Slowing the ageing process of organs & tissues.
5. Improving your overall health.
